

MORNING APPEAL

FRIDAY, MAY 2

A SICKENING INCIDENT.

On the 29th a steamship arrived in Hongkong from Yokohama. The man-hole of a tank near the engine room was opened and eight dead bodies found therein. Ten young girls, an old woman and a man had smuggled themselves in to reach Hongkong, and the door being shut, all but four perished for want of air.

The heat was so dreadful that they stripped themselves naked, and as fast as deaths occurred the corpses were laid on the hot floor and the living stretched themselves on the dead to sleep.

The survivors had been weeks in this floating goliath, a compartment that was three feet high, two feet wide, and extending across the ship.

The Place for Windom's Bill.

The Times-Review speaking of the trickery and bad faith of the Windom Bill suggests a place to store the miserable abortion as follows:

"To hell with such miserable jugglery and damnable fraud! Our representatives upon the stump prior to the last election claimed that the silver was not a political question, and they gave the people to understand that they would array themselves with the friends of by-metalism in Congress whoever they might be and to what ever political party they might belong. The Nevada press of both parties has generally ignored politics in its discussion of the question and in its suggestions as to the methods for the accomplishment of the desired end. It remains to be seen whether our Senators and Representative will keep their word, by refusing to yield to a majority of their party in caucus, which majority they admit is a minority upon the floor of each of the branches of our National Legislature.

The managing editor and business manager of the San Diego Union, have been arrested on an order of the three Superior Judges sitting in bank, upon a charge of contempt of Court. The order charges the paper with trying to influence the jury and public opinion so that a fair trial will be impossible in the case of Superior Judge John R. Altlin, now in progress for tampering with a judgment-roll.

NEVADA POTATOES.—The Iron Era published at Dover New Jersey has the following:

Dr. M. M. Stage has received from Hon. H. F. Bartine some potatoes of remarkable size, grown in Nevada. Congressman Bartine brought them to Washington with him last November to illustrate the remarkable growth effected by the climate and soil of that State. Five different potatoes shown to us, representing five different varieties, filled a peck basket. Despite their great size the potatoes grown in that State are perfectly sound. Those shown us are now on exhibition at Killgore's and later will be planted on the farm of Wm. H. Casterline.

That hacking cough can be so quickly cured by Shiloh's Cure. We guarantee it.
